Make a Circle from the Base Perimeter

Radius of Circle = Height of Pyramid

25

Height of Pyramid = 484.9 feet

1 Billion x Height = Distance to Sun

26

$\frac{\text{Moon}}{\text{Earth}} = .273$

27

What Does All This Mean?

Can we build a similar pyramid ...on another planet?

Let's try it out!!

Step 1.

Base Length = Days in 1 Solar Year

Pyramid Base

29

Step 2.

Sum of Diagonals = Precessional Cycle in Years

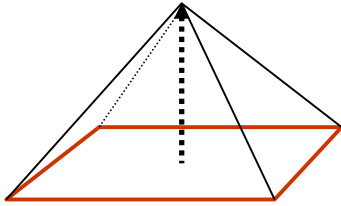

Pyramid Base

25 inches per cubit

30

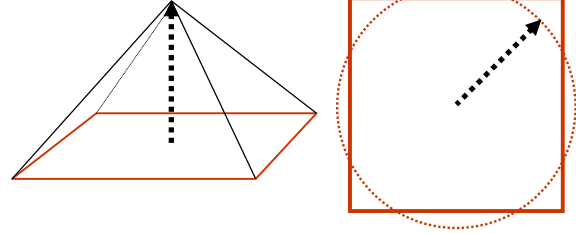

Step 3.

1 Billion x Height = Distance to Sun

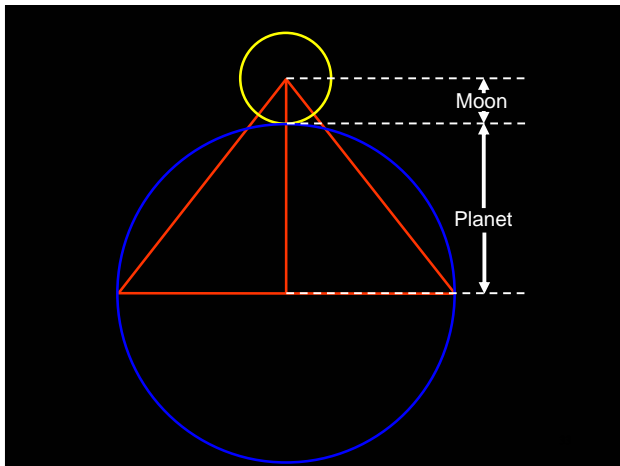

31

Height of Pyramid = Radius of Circle

32

Base Length Sets:

1. Length of Year
2. Precessional Cycle
3. Distance to Sun
4. Earth-Moon Ratio

Four Independent Features

Impossible!! – Even for God...

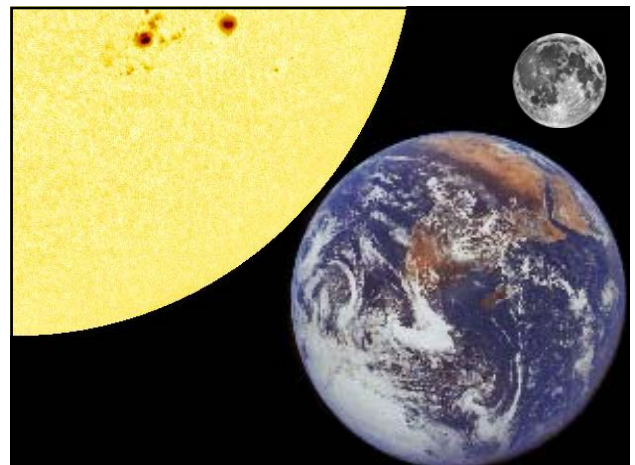

34

Unless...

God designed the Pyramid first

Then...Earth, Sun, Moon, Stars

ALL designed to fit the Pyramid

Great Pyramid shows
God's Plan and Purposes

Sun, Earth, Moon, Stars, etc.
follow the Pyramid
...and **not vice versa**

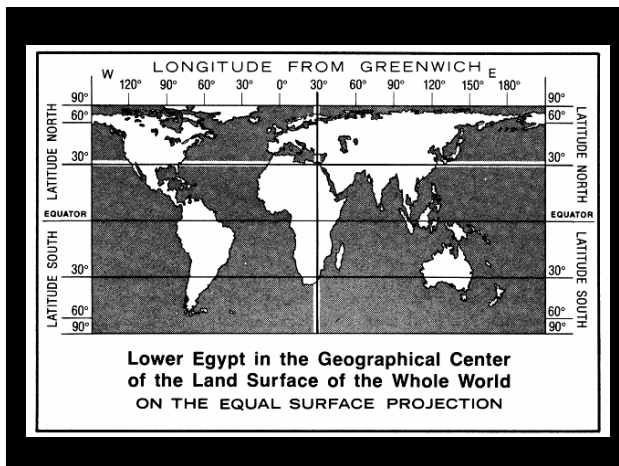

37

God is a *Reasonable* Engineer

He conforms everything to
His most important creation

Finished Church & Restored Mankind

38

Did God...

find the Center...

and then Build the Pyramid??

Pyramid casts no shadow
Noon - Spring Equinox.

This fixes the latitude
of the Pyramid.

41

So...

God... Positioned the Continents...

to point to the Pyramid.

His Plan – (shown in Pyramid)

Center of all things.

42

Adversary – How to Hide This?

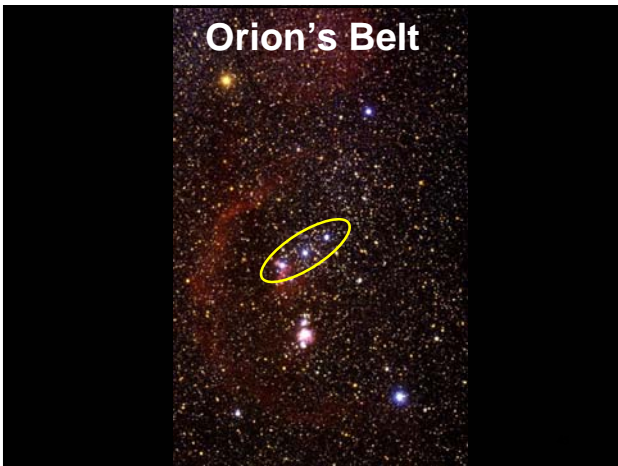

43

Religion of Egypt – Osirus – Orion – Pharaoh

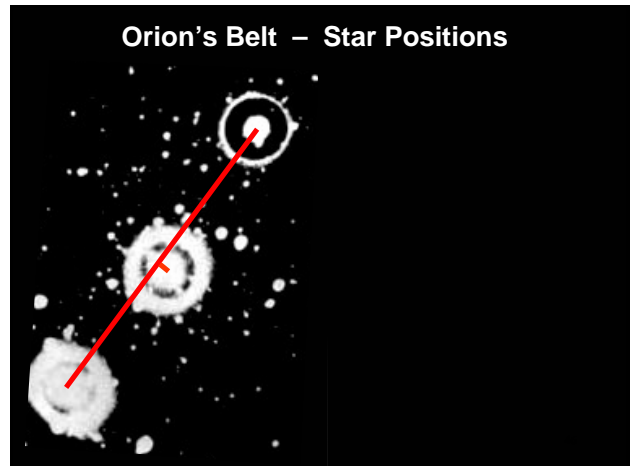

44

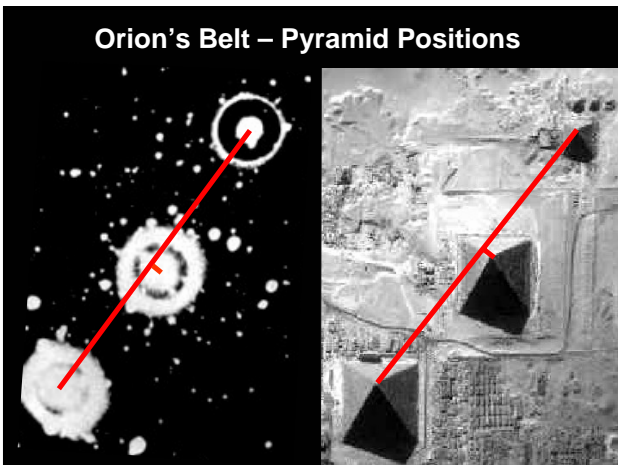

Orion's Belt

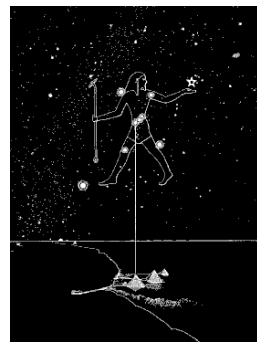

Orion's Belt – Star Positions

Orion's Belt – Pyramid Positions

“Heaven” on Earth - Hidden in Plain Sight

48

Church - Hidden in Plain Sight

- Bibles
- Christians
 - Trinity
 - Eternal Torment
 - Immortal Soul
 - Justice = “Just – Us”

49

And Moses spake so unto the children of Israel...

but they hearkened not unto Moses...

for anguish of spirit, and for cruel bondage.
